

NetSuite Opens Amsterdam HQ

Written by Marco Attard
22 April 2016

Cloud-based financial software vendor NetSuite expands operations into the Netherlands, Belgium and Luxembourg with the opening of an HQ in Amsterdam and the announcement of NetSuite OnWorld for Benelux-based companies.

According to the company the move a response to the "growing opportunity" for cloud Enterprise Resource Planning (ERP) and rising demand for its products within the region. Netsuite already has 2 datacentres in Europe-- one in Amsterdam and the other in Ireland.

“Our new Benelux operations are the latest steps in NetSuite’s European expansion and our commitment to providing businesses in the region with software and services that meet both their regional and global needs,” the company adds.

The expansion also involves a strategic alliance with Deloitte in Belgium and the securing of Dutch customers such as European airline Transavia, market research group ESOMAR and health solution provider Qardio in addition to Belgian firm Zembro.
