In a bid to bolster its position as cloud service provider Ingram Micro names HP veteran Stan Clark as Cloud Solutions VP. He reports to the distie's Global Cloud Computing executive VP, Nimesh Dave.

As Ingram Micro puts it, Clark will be identifying and recruiting strategic cloud partners, developing new industry vertical services and solutions and managing partner experiences within the product market and management, vendor management and cloud solutions teams.

"Channel resellers and vendors who are serious about establishing and growing a credible cloud services and solutions portfolio need to take a serious look at the investments Ingram Micro is making to make cloud accessible and profitable," Clark says. "I am thrilled to join such a dynamic team of business-minded technology professionals and help channel partners 'Realise the Promise of Technology' by using Ingram Micro's cloud services and solutions. Together, we can build a strategic advantage that will not only benefit their business, but also bring tremendous gains to their customers."

During his 6-year tenure at HP Clark was senior director of managed services at the Printers and Personal Systems (PPS) group, as well as worldwide senior director at the company's board of directors.
