

Smart Building Conference Moves to Hotel Okura

Written by Alice Marshall
19 June 2019

The Smart Building Conference, set to take place the day before ISE 2020 opens, is moving to the Hotel Okura for its 10th year, and final year in Amsterdam as part of ISE.

The 5-star hotel is the new conference hub for ISE, and was highly rated by attendees during ISE 2019.

The 2020 edition of the Smart Building Conference takes place on 10 February. It features the theme "5G, IoT and the Intelligent Edge," and aims to explore how the unfolding new technology landscape facilitates the deployment of smart technology within buildings and home. Each year, the conference gives ISE attendees the chance to catch up on the important trends in the smart home and smart building industry.
