

Videoconferencing Trolley with Motorized Height Control

Written by Roger Douglas
08 November 2015

Roll out your video conferences. **Edbak EVCT-190** is a 79"-90" video conferencing trolley with motorised height adjustment.

It features storage space for PC and VC equipment and universal range of VESA mounts and adapters.

An additional camera shelf is included.

Professional casters with brake mechanism complete the enterprise-ready look for this 1100 x 1718 x 566 mm unit.

Weighs 100kg and can hold 80kg. Comes in black.
