

Comprehensive Intros CHE-HDF18G01 Extender

Written by Marco Attard
22 August 2018

Comprehensive Connectivity Company launches the CHE-HDF18G01-- an HDMI 18G fibre extender TX/RX kit able to send signals up to 1005m, with support for resolutions up to 4K60 (4:2:0) using HDMI 2.0 and HDCP 2.2.

The extender is designed to convert a full HDMI signal to a fibre signal, which can be transmitted over 1005m using single mode fibre cable or 300m over multi-mode fibre cable. It also supports 4K2K@30Hz, 1080p@120Hz and 1080p 3D@60Hz, as well as up to 7.1 channels of high definition audio (LPCM, Dolby TrueHD and DTS-HD Master Audio).

The package includes 2 IR receivers and 2 transmitters, allowing for bi-directional control with RS232 support.
